

Year 10 Geography

THE JOURNEY OF LEARNING

Geographical Skills

- Fieldwork and Enquiry
- Analysing and Presenting data
- Map skills

Year 11 Summer Preparation

Ex Write: Discuss the social and economic opportunities and challenges in a hot desert?

Ecosystems: What are the opportunities and challenges in a hot desert?

Ecosystems: How have organisms adapted in a hot desert?

Ecosystems: How can tropical rainforests be managed sustainably?

Ecosystems: What are the causes and impacts of deforestation?

Ecosystems: How have organisms adapted in a TRF?

Ecosystems: How are the organisms linked in a TRF?

Ecosystems: What are the causes of desertification and how is it managed?

Ecosystems: How are the organisms linked in a hot desert?

Ex Write: Using an example discuss the causes and impacts of deforestation in a TRF.

Fieldwork: How can we design an enquiry on Salford Quays?

Ecosystems: How are organisms interdependent in ecosystems?

Urban change in the UK: How has urban regeneration effected Salford Quays?

Urban change in the UK: What are the features of sustainable urban living in BedZED?

Urban change in the UK: How is the London congestion charge reducing congestion?

End of Year Assessment

Year 10 Summer Term 2

Ext write: To what extent has urban change made opportunities in Manchester?

Urban change in the UK: How has urban change created challenges in Manchester?

Urban change in the UK: How has urban change created opportunities in Manchester?

Urban change in the UK: Why is Manchester an important city in the UK?

Ext write: "Assess the success of an urban regeneration scheme you have studied"

Ext write: Discuss strategies to make urban living more sustainable.

Fieldwork: What conclusions can we draw from our enquiry on Salford Quays?

Ecosystems: What is the global distribution of biomes?

Ext write: "Evaluate the social, economic and environmental challenges in a place you have studied?"

The urban world: How has urban growth created social, economic and environmental challenges in Rio?

The urban world: Why is Rio de Janeiro an important city?

The urban world: What are the global patterns of urban change?

Ext write: Evaluate the flood management strategies implemented in an area you have studied.

DIRT

DIRT

Year 10 Summer Term 1

River landscapes How were floods managed in Boscastle?

River landscapes What factors increase the risk of flooding?

The urban world: What factors affect the rate of urbanisation?

River landscapes How do fluvial processes shape the landscape?

River landscapes How do erosional processes create landforms?

River landscapes What landforms have been created on the River Tees?

River landscapes How do we manage flooding?

Ext write: "To what extent can the coastal management on the Holderness Coast be considered a success?"

DIRT

Year 10 Spring Term 2

Coastal landscapes How does managed retreat protect the coastline?

Coastal landscapes How do we manage the coastline?

Coastal landscapes What landforms have been created on the Holderness Coast?

Coastal landscapes Which management strategies are being used along the Holderness Coast?

Coastal landscapes What are the different types of weathering and mass movement?

UK Landscapes: What are the UK's physical landscapes?

DIRT

Climate Change: What are the human causes of climate change?

Climate Change: What is the evidence for climate change?

Year 10 Spring Term 1

Coastal landscapes How do depositional processes create landforms?

Coastal landscapes How do coastal processes shape the coastline?

Coastal landscapes What are the characteristics of different waves?

Ext Write: Justify the most significant cause of climate change.

Climate Change: How do we manage the impacts of climate change?

Climate Change: What are the natural causes of climate change?

Ext Write: "The weather in the UK is becoming more extreme" Do you agree?

Ext write: Discuss the reasons why people live in tectonically active areas.

Weather Hazards: What is Global Atmospheric Circulation?

Weather Hazards: Where and how are tropical storms formed?

Weather Hazards: How do we reduce the impacts of tropical storms?

Ext Write: "Primary effects of a tropical storm are more destructive than secondary effects" Evaluate this statement

Climate Change: What are the natural causes of climate change?

Year 10 Autumn Term 2

Tectonic Hazards: How do we reduce the impacts of tectonic hazards?

Tectonic Hazards: Why do people live in tectonically active areas?

Ext write: "To what extent do the effects of a tectonic hazard vary between areas of contrasting wealth?"

Weather Hazards: What is the global distribution of tropical storms?

Weather Hazards: What were the effects and responses to Hurricane Dorian?

DIRT

Weather Hazards: What extreme weather do we have in the UK?

Weather Hazards: What were the causes, effects and responses to the 'Beast from the East'?

Weather Hazards: Is the weather in the UK becoming more extreme?

Tectonic Hazards: What were the effects and responses to the Haiti earthquake?

Tectonic Hazards: What is the global distribution of earthquakes and volcanoes?

Year 10 Autumn Term 1

Summer Holidays

Tectonic Hazards: What were the effects and responses to the Christchurch earthquake?

Tectonic Hazards: What are the physical processes at the plate boundaries?

Natural Hazards: What are natural hazards?

Closed-Book Assessment
